

Competitions ... and much more

Every stage of FWS has much to enjoy outside of just a packed schedule of sports.

An entire community of riders, organisers, DJs, speakers, judges, participants and partners live the adventure that is the FWS.

Sporting values are what bring people of all ages and levels of experience together at each stage of the tour. Although the competition events are the highlights, spectators can also take advantage of the many other activities on offer as they immerse themselves in the Festival atmosphere.

DEMONSTRATIONS

It's a great opportunity for the public to discover new disciplines through demonstrations by passionate athletes who are keen to showcase their sports.

INTRODUCTORY SESSIONS

The most curious spectators can safely try out disciplines offered by specialist instructors. All the gear, safety equipment, and supervision by a professional, are free of charge.

ACTIVITIES

The Festival is above all a friendly way to discover the culture of action sports outside just competitions. Everyone can benefit from the exhibitors' villages which reflects the FISE world. Take a look at what the stalls have on offer: test sports products or equipment, tattooing, refreshments, clothing, accessories...

COMPETITIONS

Alongside official competitions, riders can participate in different types of contests. This makes it possible to bring together riders in the various disciplines to challenge each other for prize money or the many partners. There are plenty of examples: during a Best Tricks Competition, some elements of a classic Skatepark are selected and riders try to achieve their best figures on each of them. In an OUT contest, the first to succeed chooses a trick, and the following riders have three tries to surpass the leader
